

Wyong Leagues Group commits to the future of League

The Wyong Leagues Group today announced a three-year partnership with Rugby League Central Coast, becoming their Major Community Sponsor.

The partnership will ensure funding to support programs right across the Game, from kids playing in their first game all the way through to 1st Grade.

Wyong Leagues Group CEO Ben Coghlan states “This partnership is yet another demonstration of the level of commitment that we have for Rugby League on the Coast. Our group has its origins in the game, we are therefore passionate about its present health and its future. We are delighted to have this opportunity to make a direct difference to all who participate in Central Coast Rugby League at all levels. We look forward to working with the new RLCC leadership and our Board and Management offer them our strongest support”

One of the benefits from this new partnership for teams on the Coast will be having the Grand Final, held at Morry Breen Field. This will allow clubs to generate much needed funds through bar and canteen trade each year.

This partnership follows the Group’s decision this season, to re-commit to their award-winning Junior Rugby League Subsidy Program which proved to be very popular last year. This subsidy provides each child with \$100 to offset their registration fees, making the game accessible to families who might otherwise have struggled to meet registration costs.

RLCC Chairman Nathan Waugh states “This is a truly exciting development for us. A partner like Wyong Leagues Group gives us a great opportunity to not only consolidate but to potentially grow the game on the Coast. We are extremely grateful to receive a commitment of this scale and very much look forward to a great partnership”
